EXCLUSION CRITERIA

- Greater than 25% of all cases have no secondaries diagnoses (excluding normal newborns)
- Less than 50% of all cases have secondaries flagged as "prior to admission"
- Greater than 97% of all cases have secondaries flagged as "prior to admission"
- Greater than 50% of all cases have secondaries flagged as "not prior to admission"
- Greater than 2% of all cases have secondaries flagged as "uncertain"

Failure on **one or more** criteria results in a hospital being flagged as ineligible.

* Eligibility pertains to ability of hospitals to participate as a "beta" site in 3M's "Potentially Preventable Complications" project.
