

# The Food and Nutrition Services Bundle

---

April 26, 2019

# FOOD IS MEDICINE

# GOALS

---

- Improve food security and nutrition status of individuals and families residing in the Bronx
- Enable hospital and managed care teams to easily and reliably connect patients and members to the optimal food and nutrition resources to meet their needs
- Provide referral outcomes, stratified by key demographics, risk factors, and healthcare use to establish value

# PARTNERS

---

- **Public Health Solutions** has expanded on our experience providing on-site SNAP enrollment in healthcare settings to form a local partnership in the Bronx, including:
  - Providers of SNAP enrollment, WIC, congregate meals, emergency food, and medically tailored home delivered meals
  - Two hospitals launching food insecurity screening
  - Managed care organization

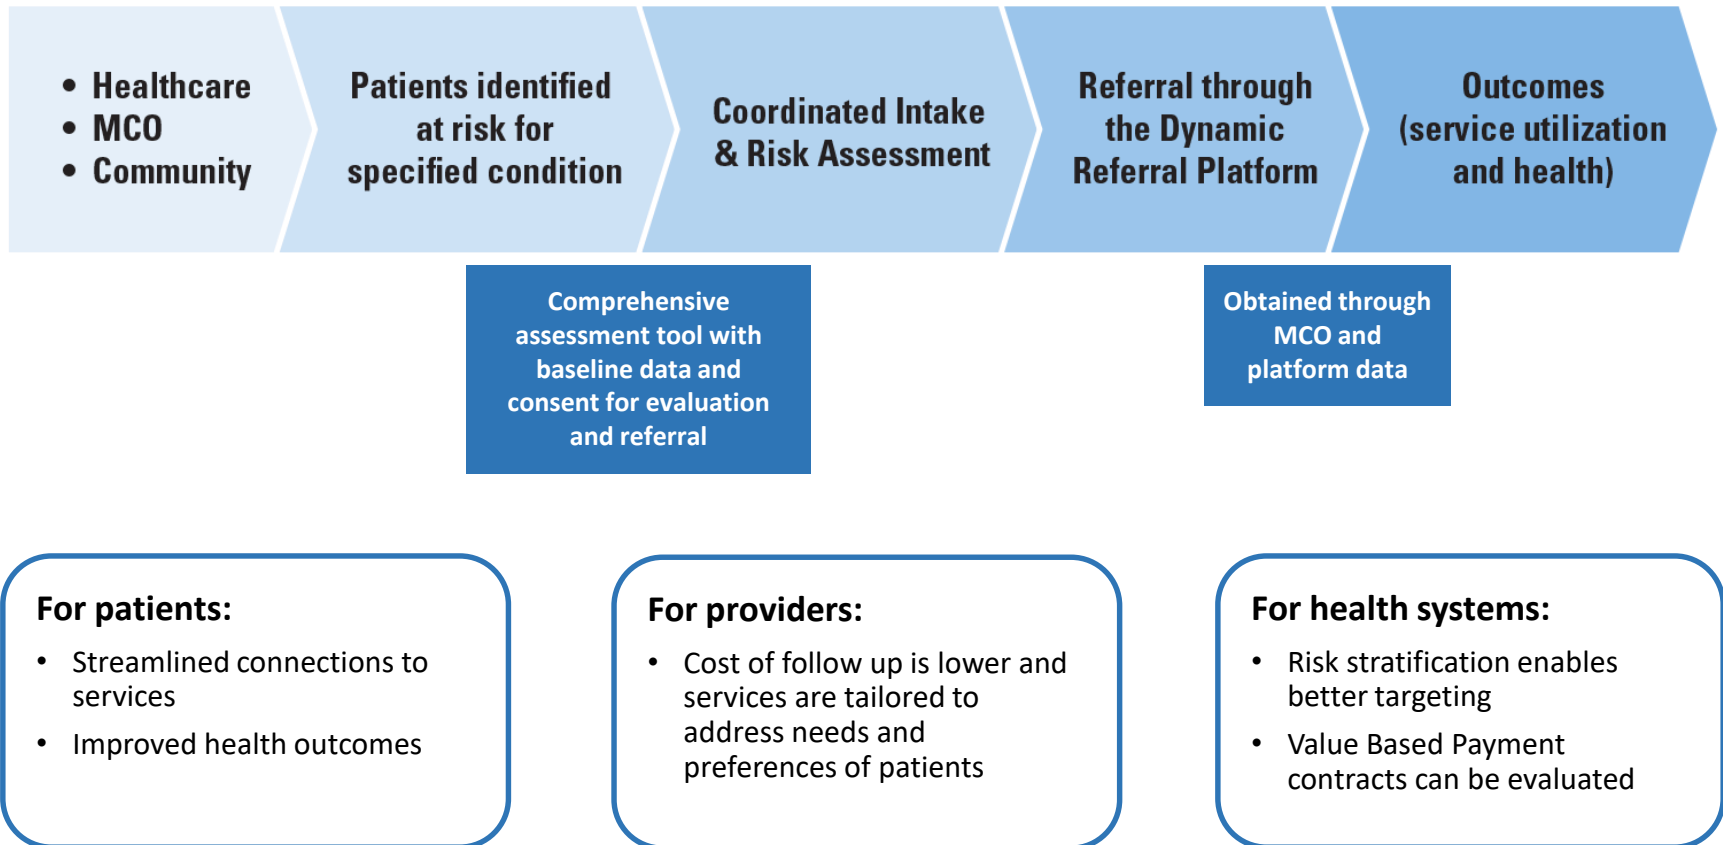

**GOD'S LOVE  
WE DELIVER®**

# MODEL DESIGN

## Example of Coordinated Network Model via Dynamic Referral Platform:

**The Dynamic Referral Platform connects all of these networks, through a no-wrong door approach!**

# RESULTS

**600+ clients**

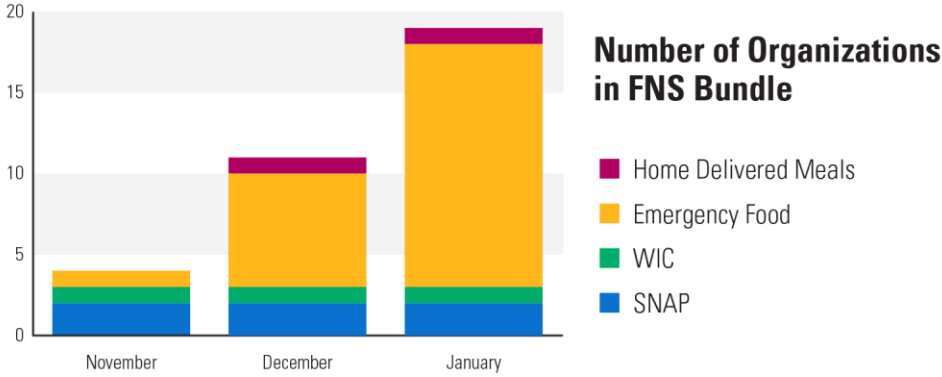

screened since November 2018

**1100+ referrals made**

**65% in-network referrals resolved**

**\$820 average annual healthcare savings per participant**

- 31% are over 60 year-old
- 71% NEED emergency food
- 76% are on Medicaid
- 24% are uninsured
- 12% report chronic conditions

**Referrals Accepted by Service**
