

# ED MAT QUALITY COLLABORATIVE

January 30, 2019

**GREATER NEW YORK HOSPITAL ASSOCIATION**

*Over 100 years of helping hospitals deliver the finest patient care in the most cost-effective way.*

# How Do We Improve

- What are trying to accomplish?
- How will we know that a change is an improvement?
- What change can we make that will result in improvement?
- The Plan-Do-Study-Act (PDSA) cycle to test changes in real work settings.

# GNYHA Approach

- Learning collaborative model
- Sharing and ‘stealing’
- Rapid cycle improvement
  - Data/metric informed
- Team-based development and implementation
- Technical assistance based on identified obstacles and needs
- Encourage alignment with existing institutional initiatives and requirements
  - Opioid stewardship programs
  - Joint Commission
  - DOH, OMH, OASAS, communities

# Background

- Underuse of evidence-based treatments (MAT) to address the opioid crisis
- Innovations in access to MAT across settings and wherever individuals with SUD present
  - Primary care
  - Hospitals
    - Emergency department
- Imperative to improve access to MAT and accelerate adoption of promising practices

# Goals and Objectives

- Improve outcomes for individuals with SUD
  - Promote screening, assessment, treatment and referral for individuals with SUD
  - Normalize access to buprenorphine for appropriate individuals presenting in EDs
  - Strengthen linkages with outpatient and community providers, agencies, and resources for treatment and recovery
  - Support judicious opioid administration and prescribing with use of alternatives to opioids for pain management when appropriate

# Logistics

- Nine (9) month collaboration
  - Calendar for planning
- Monthly calls
- Webinars/Training as needed
- Data collection (monthly)
- Application with contact person and team
- Access to resources
  - PSYCKES
  - Waivered prescribers
  - Community resources and providers
  - PMP registry
  - ACEP E-QUAL

# For Today

Hear from your colleagues who have already implemented

Give your team a chance to start planning

Discuss common and unique challenges and opportunities

Identify technical assistance needs

Introduce proposal for data and metrics (volunteer for subcommittee)

# DATA AND MEASUREMENT

**GREATER NEW YORK HOSPITAL ASSOCIATION**

*Over 100 years of helping hospitals deliver the finest patient care in the most cost-effective way.*

# Goals for Data Collection

Use data and metrics that directly advance objectives of the collaborative

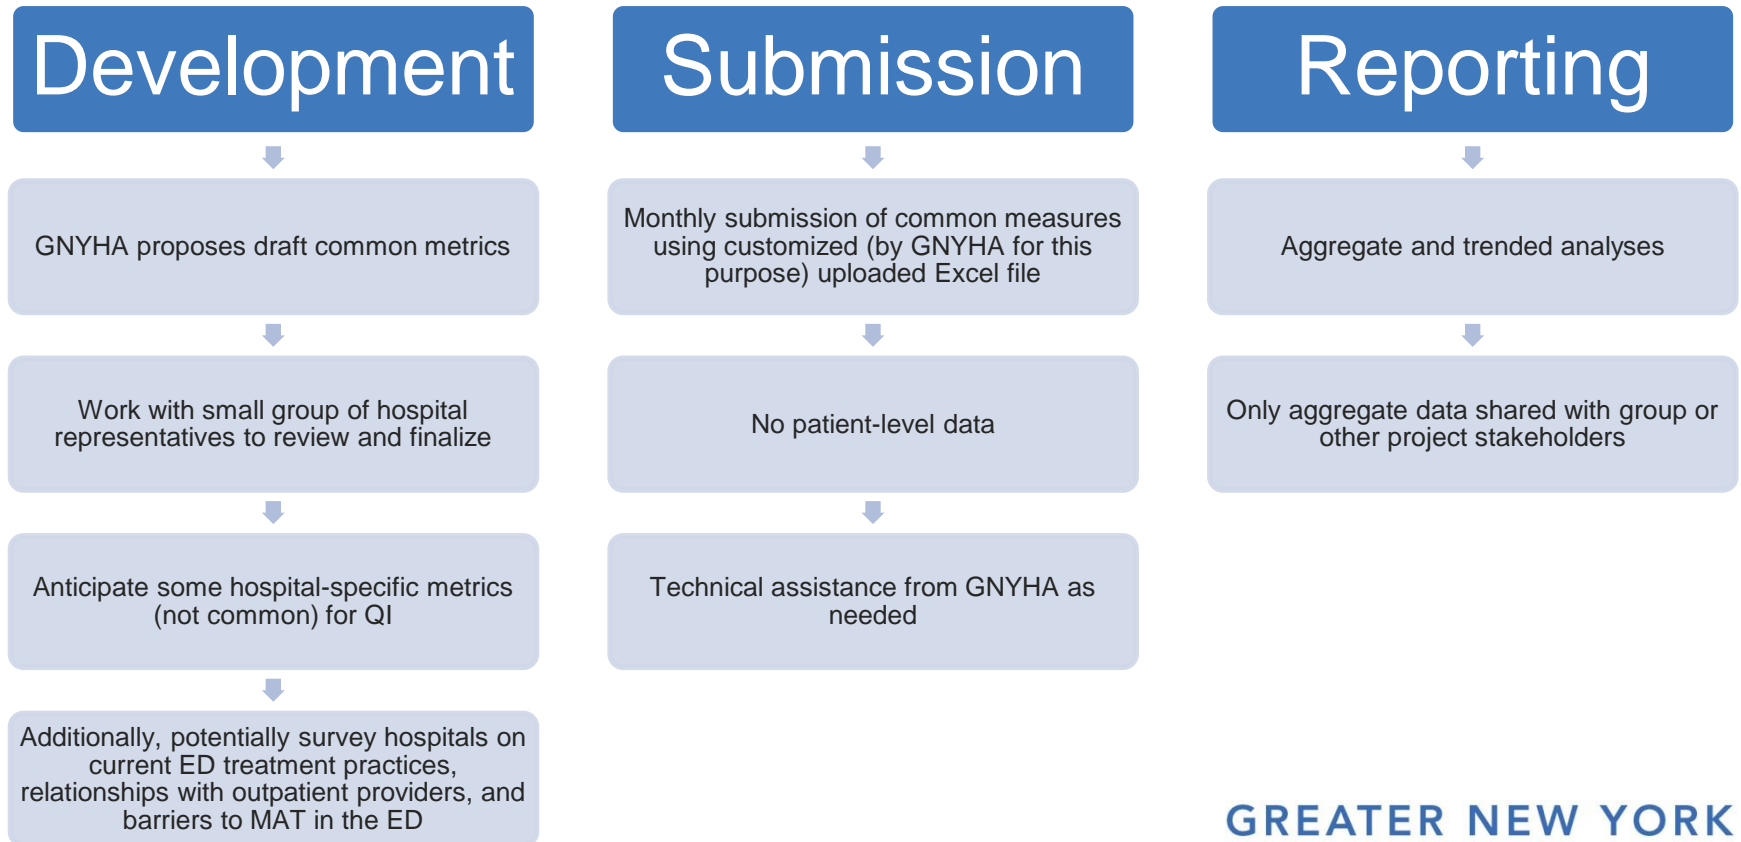

- Fewest possible
- Lowest burden

Purpose is monitoring impact of changes within your hospital emergency department over time

Allow hospitals flexibility in defining terms like...

- “screen”
- “offer”
- “appropriate for”
- “linked”

# Approach for Data Collection

# Proposed Metrics

Goal	Common Metrics	Optional Metrics for Discussion
Increasing ED capacity to prescribe buprenorphine	<ul style="list-style-type: none"> <li>- # 'x' waived prescribers</li> <li>- # prescribing buprenorphine</li> </ul>	
Identifying patients for induction in the ED	<ul style="list-style-type: none"> <li>- # of patients eligible</li> </ul>	<ul style="list-style-type: none"> <li>- # of patients screened for OUD</li> <li>- # of patients ineligible for induction</li> </ul>
Increasing induction in the ED	<ul style="list-style-type: none"> <li>- # initiated in the ED</li> <li>- # given prescription on discharge</li> </ul>	<ul style="list-style-type: none"> <li>- # given prescription who were ineligible for induction in the ED</li> <li>- # of patients refusing induction</li> </ul>
Improving connections with community providers	<ul style="list-style-type: none"> <li>- # linked to outpatient OUD treatment</li> </ul>	
Reducing opioid prescribing	<ul style="list-style-type: none"> <li>- % of patients seen in ED who received opioids during visit who first received non-opioids</li> </ul>
