

# ED MAT QUALITY COLLABORATIVE

## TEAM ACTION PLANNING WORKSHEET

Name of Hospital: \_\_\_\_\_

Name of Key Contact: \_\_\_\_\_

IMPLEMENTATION STRATEGY	CURRENT STATE? <i>(Indicate if fully implemented or not fully implemented, and share current state)</i>	HOW? <i>(If not yet fully implemented, indicate action plan)</i>	LEAD?	STARTING WHEN?	MEASURE OF SUCCESS?
Create an ED MAT project team within your hospital with appropriate staff representation					
Develop a communication strategy or educational sessions to educate clinicians and ED staff about your ED MAT project					
Support Waiver Training as needed. Identify waived prescribers within your emergency department and identify gaps in staffing coverage of waived clinicians					
Identify any resources needed for successful implementation (staffing, educational materials, referral sources, IT support, financial, etc.)					
Ensure that Screening and Assessment for OUD process and personnel is in place within the ED					
Create or adopt Algorithm for Buprenorphine Induction Appropriateness and Treatment Guidelines					
Conduct needs assessment regarding referral process and warm hand-off to providers for post-ED treatment					
Identify a data plan for collection, use, and distribution of common metrics					
Identify champions among staff i.e. physicians, nurses, pharmacists, behavioral health staff, or administrators within the ED that can help ED staff adapt to changes					

Name of Hospital \_\_\_\_\_

Please identify the 3 main barriers you anticipate to a successful MAT in the ED and Collaborative participation, and two strategies for overcoming each of these barriers:

Barrier 1: \_\_\_\_\_

Question 1a: \_\_\_\_\_

Question 1b: \_\_\_\_\_

Barrier 2: \_\_\_\_\_

Question 2a: \_\_\_\_\_

Question 2b: \_\_\_\_\_

Barrier 3: \_\_\_\_\_

Question 3a: \_\_\_\_\_

Question 3b: \_\_\_\_\_
