

**CLINICAL QUALITY
FELLOWSHIP PROGRAM**

**Building a Culture of Safety and an Environment to Improve Patient Safety
May 18, 2023**

Objectives: By the end of the session, Fellows will:

1. Understand the elements necessary to develop a patient safety culture.
2. Understand how health care institutions can practically implement a culture of safety and mutual respect.

*Required Reading:**

- Joanne Campione, PhD, MSPH; Theresa Famolaro, MPS, MS, MBA. 2018;
Promising Practices for Improving Hospital Patient Safety Culture; The Joint Commission
Journal on Quality and Patient Safety: 44:23–32

*Electronic versions of required readings are included on a flash drive provided to each Fellow.
