

2024 Coastal Storm Planning NYC Healthcare Facility Evacuation Planning Application (Facility Profile Application) Webinar Training – Recorded Training Session

Background

The Facility Evacuation Planning Application (FEPA) (previously known as Facility Profile Application) is a planning tool designed to facilitate the development and maintenance of Health Care Facility (HCF) (adult care facility, hospital, nursing home) evacuation planning information related to evacuation and send/receive arraignments needed to make that possible. The FEPA has been modified as an all-hazards planning tool for all of New York State (NYS).

Goal

To provide adult care facilities, hospitals, and nursing homes with an overview and purpose of the FEPA, This includes 2024 Coastal Storm and Flood Planning Activities requirements.

Target Audience

Staff from NYC based adult care facilities, hospitals, and nursing homes that are responsible for evacuation planning and response as well as repatriation.

Please Note!!!

The content in this presentation is previously recorded. All requirements apply for the 2024 compliance season. All appropriate portions of the application must be updated for 2024 between January 1, 2024 and March 31, 2024. Please review dear administrator letter and FEPA Users Guide NYC 2024 for additional details.
